## EDUCATION

### Batangas State University - Alangilan Campus, Batangas City, Batangas — *Bachelor of Science in Computer Engineering*

AUGUST 2019 - PRESENT

- First Semester (2022-2023) GWA - 1.2
- Dean's Lister

### Manuel S. Enverga University - Candelaria Campus, Candelaria, Quezon — *Science, Technology, Engineering, and Mathematics*

AUGUST 2017 - APRIL 2019

- GWA - 1.40
- Student with High Honor

## PROJECTS

### Monicov — *Java, Firebase*

APRIL, 2022 - MAY, 2022

Monicov is a mobile app designed to assist with the management of non-critical COVID-19 patients in quarantine or isolation. It was created as a final project for a software design course.

### Keep Notes — *Jetpack Compose, ROOM Database, MVVM*

NOVEMBER, 2022

Keep Notes is a note application where the user can add, delete, update, and save a note. The application uses a local database called Room Database, therefore, the data from the user will be saved even if the app is closed.

### MovieZone — *Jetpack Compose, Coil Library*

NOVEMBER, 2022

MovieZone is a simple application that contains a collection of movies with different genres. The data that was used in the application was gathered and collected from the internet. Moreover, the coil library was also utilized to load images from the internet.

## SKILLS

Kotlin  
Jetpack Compose  
Java  
Python  
Firebase  
Cloud Firestore  
Javascript  
HTML  
CSS  
AWS  
Git  
Android Studio

## AWARDS/CERTIFICATIONS

### World Engineering Day Hackathon 2022 Participant

December 2021

### AWS Academy Graduate - AWS Academy Cloud Foundations

October 2022

## LANGUAGES

Filipino / English
